

**Module SS3141: Anatomical & Physiological Aspects of Pilates Corrective Exercise  
(6 ECTS)**

20 min online assessment A&P content 100%

**On Line Assessment**

Participants will take an on-line assessment on a specified date (date and time to be advised). Questions will be a mix of multiple choice/multiple answer, matching and diagram labelling. Questions will have varying levels of difficulty and will have varying weightings.

A sample will be available on line in advance of the actual assessment.
