

## **Assessment Procedures**

### **Facility Operations Specialist Module**

#### **Assessment 1 On-Line Theory Assessment (20% of overall mark)**

Students will take a 20-minute on-line assessment containing 20 questions on a date suitable to them within the Assessment period of the module. This is generally a 4-day window from Thursday morning to midnight Sunday. Date will be provided on your Start Up letter. Questions will be a mix of multiple choice/multiple answer and matching questions and will be very similar in content to the topic quizzes that you have taken throughout the module

- Questions will have varying levels of difficulty and will have varying weightings.
- A sample is available on the Assessment Page on your E Learning website Assessment 2 – On-line

#### **Open Book Assessment (80% of overall mark)**

##### ***Assessment Outline***

The assessment is on-line, 2 hours duration and contains 4 short case study type questions relating to the content from the Facility Operations Module. The questions will require you to apply the knowledge gained from the module to address the case study problems and regurgitation of information is not required. However, you should refer to various works, studies, authors and theories to support your answer.

A sample of 2 questions of the type that will be within the assessment are available on your e learning website.
